

Press release

Praxair Canada is now Linde Canada

Mississauga, Ontario, March 1, 2021 – Linde (NYSE: LIN; FWB: LIN) today announced that its Canadian subsidiary, Praxair Canada Inc., has changed its name to Linde Canada Inc. This name change aligns the Canadian business with the global Linde brand and reflects the company’s evolution following the combination of Praxair, Inc. and Linde AG. Its vision is to be the best performing global industrial gases and engineering company.

The combined product and service portfolios of the new Linde offer Canadian customers more options to improve operational efficiency and plan for future growth. Linde Canada Inc. remains committed to providing the same reliable, high-quality products and services that its Canadian customers have come to expect. It will continue to be committed to safety, integrity, community, inclusion, and accountability in all it does, living its mission of *making our world more productive*.

The primary customer contact for products and services will remain the same. Beginning March 1, information on the Canadian business may be found at www.LindeCanada.ca. Your closest Linde store is available by phone at 1.800.225.8247 . Linde’s Medigas division will continue to operate under that name in Canada.

About Linde

Linde is a leading global industrial gases and engineering company with 2020 sales of \$27 billion (€24 billion). We live our mission of making our world more productive every day by providing high-quality solutions, technologies and services which are making our customers more successful and helping to sustain and protect our planet.

The company serves a variety of end markets including chemicals & refining, food & beverage, electronics, healthcare, manufacturing and primary metals. Linde’s industrial gases are used in countless applications, from life-saving oxygen for hospitals to high-purity & specialty gases for electronics manufacturing, hydrogen for clean fuels and much more. Linde also delivers state-of-the-art gas processing solutions to support customer expansion, efficiency improvements and emissions reductions.
